In the New GL, every financial document can be ensured to have a zero balance by profit center, segment or business area, depending upon the business requirements. This functionality ensures drawing out balance sheet at Profit center level, segment level or business area level.

New General Ledger - Introduction | SAP Blogs

General Ledger View in New GL. In contrast to the data entry view, (the view is shown when a user posts a document), the General Ledger View shows only the elements of a document that are relevant for the general ledger. In the general ledger view, the document is shown not only in the leading ledger but in the non-leading ledgers as well.
