Investigation 1 - Variables and Coordinate Graphs 1.1 This activity gets very confusing for the children and sometimes for the teacher as well. The counting is to be continuous. The counter shouts out the number that he or she is on when the timer says "Time". This is how it will go: The timer says go, then in ten seconds he or she says "Time" and the counter says the number, i.e. "19", then continues counting 20, 21, 22 quietly.

Investigation 1. Variables, Tables, and Graphs. 1.1 - Getting Ready to Ride. In this problem we investigated the physical endurance of riders during a long-distance bicycle ride. We modeled this endurance by completing a jumping jack experiment where we recorded the amount of jumping jacks over time. We showed this data using a table and a graph.
